

AlvaSync

Revolutionizing Home Management
through Automation and AI

In today's fast-paced world, managing a household can feel overwhelming.

Endless to-do lists, forgotten supplies, wasted food, and the constant stress of keeping everything in order.

Families are struggling to balance work, life, and home management.

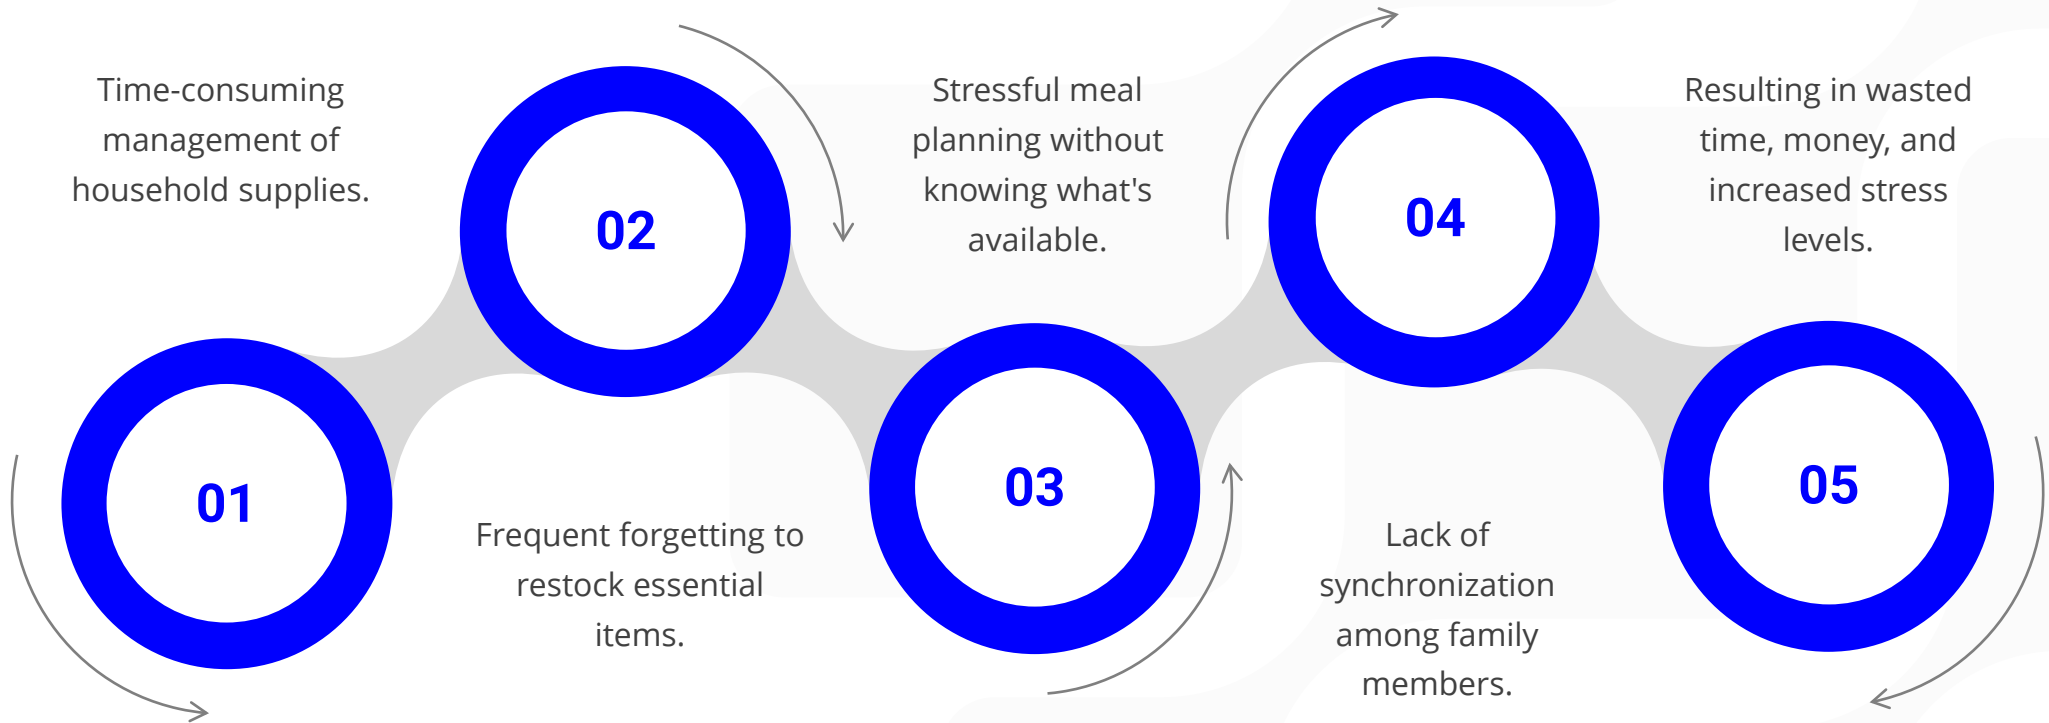

Imagine the frustration of starting your day without essentials like coffee or breakfast for the kids.

The anxiety of last-minute trips to the store, the guilt of throwing away unused food, the feeling of being out of control in your own home.

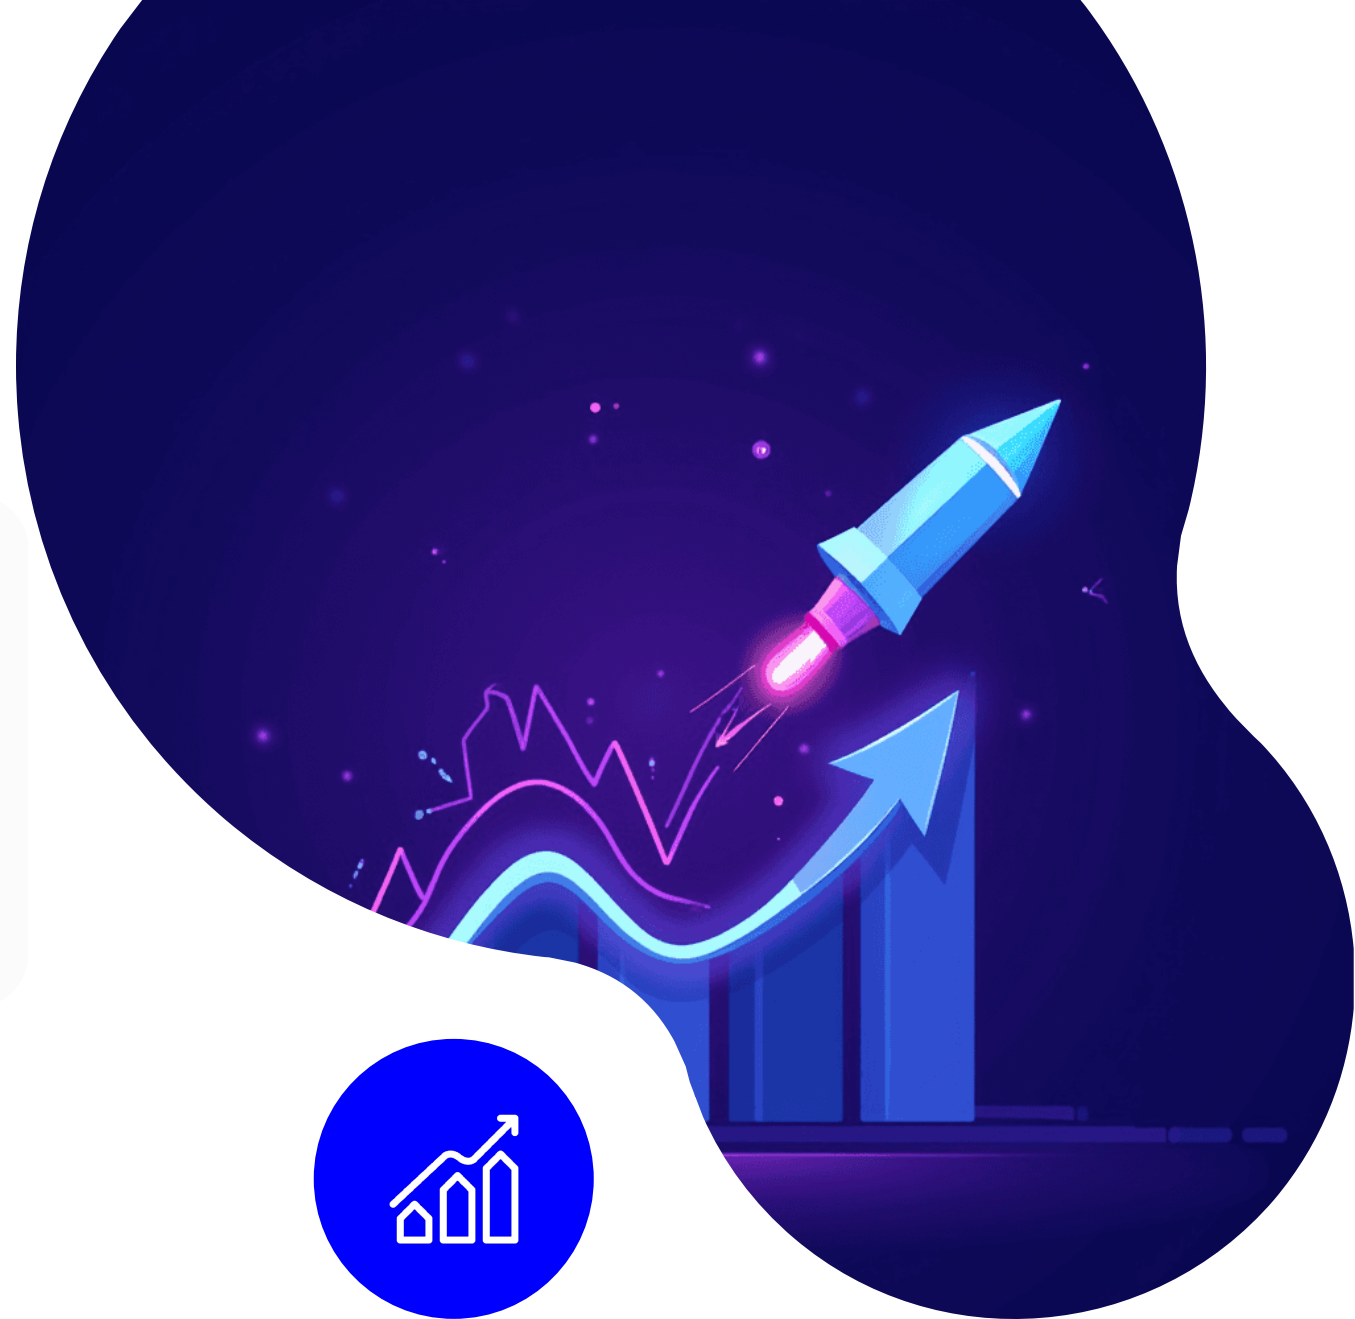

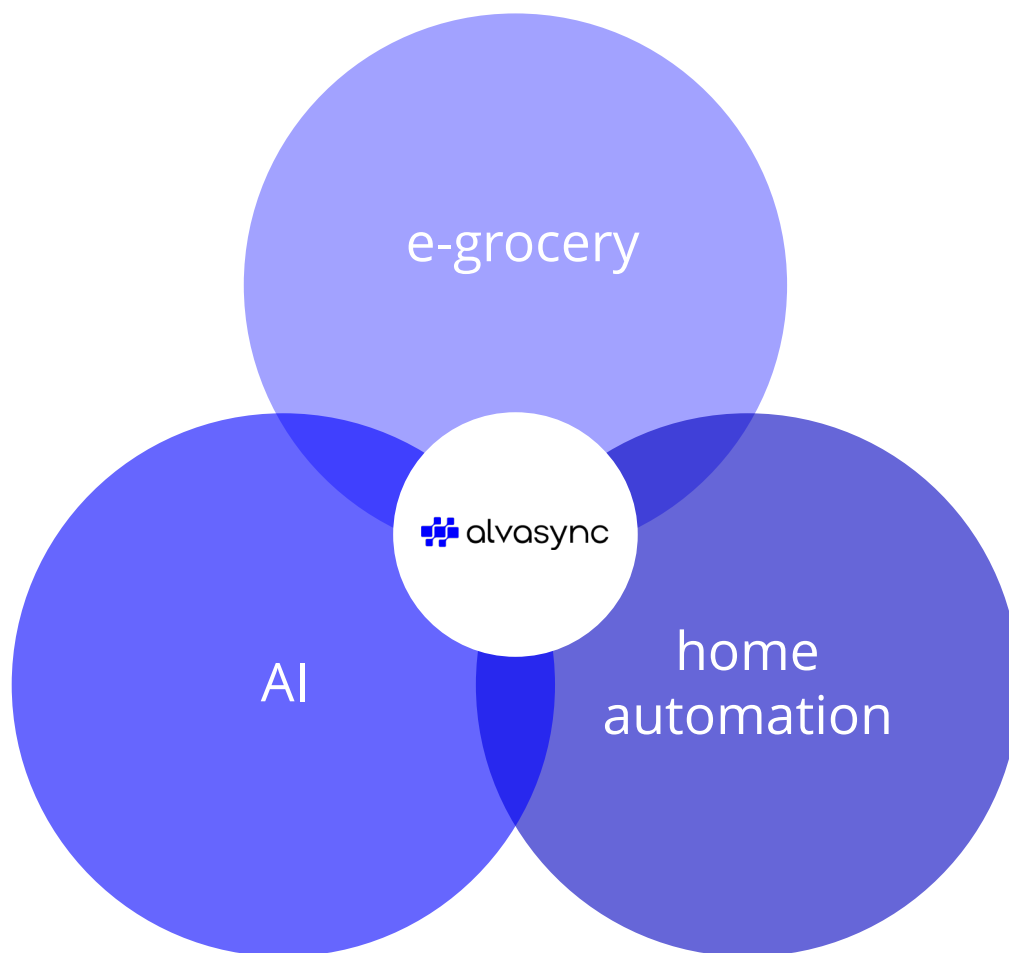

These daily struggles affect millions, leading to stress and reduced quality time with loved ones.

A Growing Need in a Booming Market

- Global e-grocery market expected to reach \$2.15 trillion by 2030, growing at a CAGR of 25.3%.
- Smart home market projected to reach \$207.88 billion by 2027, with a CAGR of 10.4%.
- 57% of consumers shop online for groceries; expected to reach 20% of total grocery sales by 2025.
- 73% of consumers are willing to pay more for products that simplify their lives.

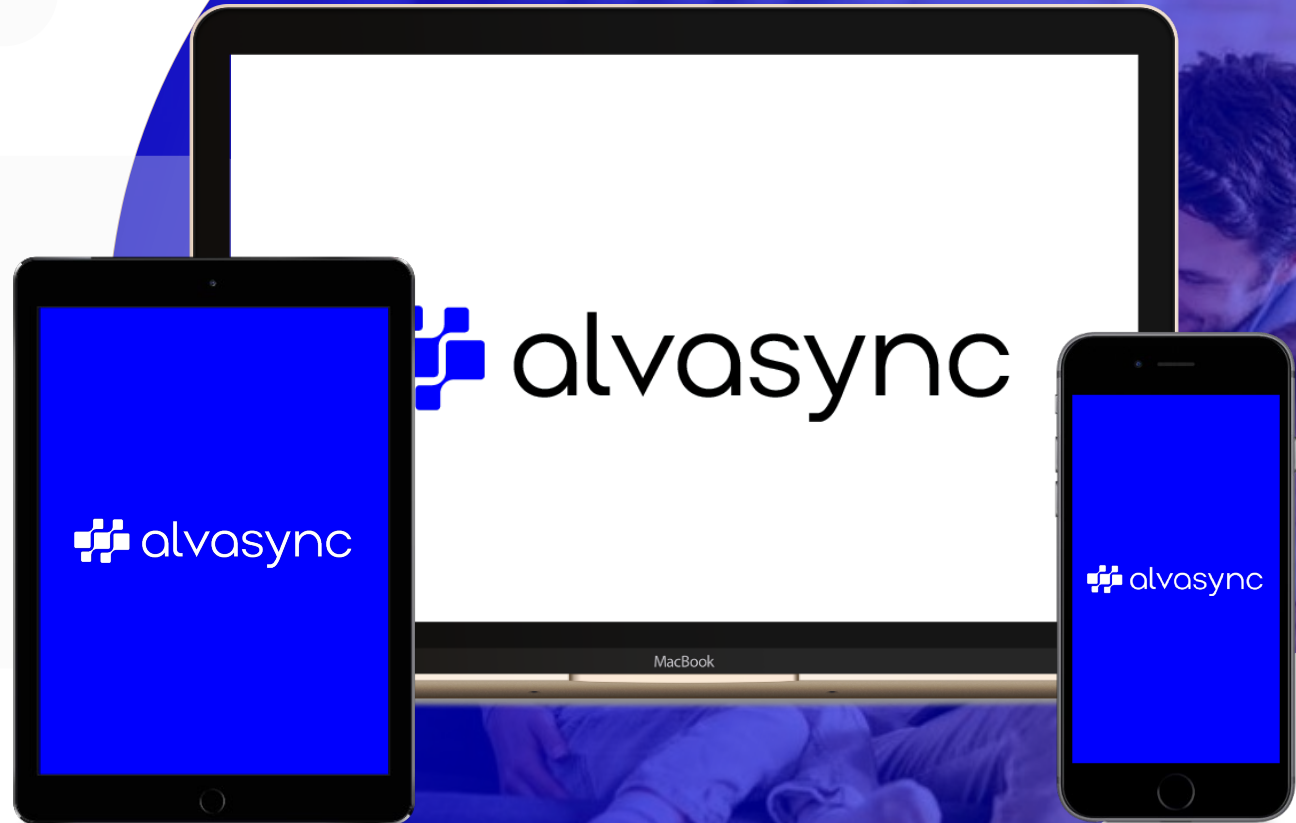

AlvaSync stands at the intersection of e-grocery, home automation, and AI—a unique position to capture a significant share of these booming markets.

By addressing a real pain point for consumers, we tap into a multi-trillion-dollar opportunity.

- "Meet AlvaSync, the platform transforming home management into a seamless, stress-free experience."
- "We empower families to regain control, save time, reduce waste, and enhance their quality of life."
